

## India for Beginners custom tours

**India for Beginners wants to work with you.**

India for Beginners is a custom tour business based in India. We are interested in partnering with bloggers, travel agents, and tour operators. In return for promoting our tours online, we offer commission on every booking you refer to us. We can also create a “white label” tour of India for you, with your branding, and it’s up to you to decide markup. We can handle large groups and can operate as a DMC.

### Who is India for Beginners?

India for Beginners is a partnership between Mariellen Ward, an India-based traveller who knows what it's like to travel as a foreign woman in India, and Anjani Nandan of Cloud Itineraries, a local, Delhi-based travel company with more than 10 years' knowledge and experience, plus a nation-wide network of contacts. Our clients get the best of both worlds — the foreigner perspective and local expertise. Mariellen is the founder of the [India-focused travel blog Breathedreamgo](#). She has spent about seven years altogether travelling in India and currently lives in Rishikesh.

India for Beginners custom tours are especially designed for solo female travellers, first time visitors to India, and people with a “beginner’s mind” who want to see India in a new way, with a focus on sustainability and authenticity.

We invite our travellers to experience the magic of India ... with sustainable travel choices that support the environment and local communities. We offer a premium service with hand-picked hotels, drivers, and guides; and customize the tours to suit clients' dates, interests, preferences, and budgets. Ensuring travellers in India are safe and comfortable is our number one goal.
